

## **PHS Interim Management**

Provides capable, immediately available interim management resources, to manage gaps, projects or change.

### **Interim management can provide the skills and experience required.**

Applying an interim for a short period is now accepted as a cost efficient and more effective alternative to traditional consultancy solutions.

Most organisations are now driven by the global market and ever higher customer expectations, to continually improve their internal efficiency and competitive advantage. No longer can companies afford to retain under-utilised management resources to deal with unexpected demands or special projects. Of course when these occur unacceptable pressure is placed on individuals in the management team which can seriously affect Company performance.

**Solve your challenge by using this highly valued, tried and tested, low risk approach.**

### **Success by listening**

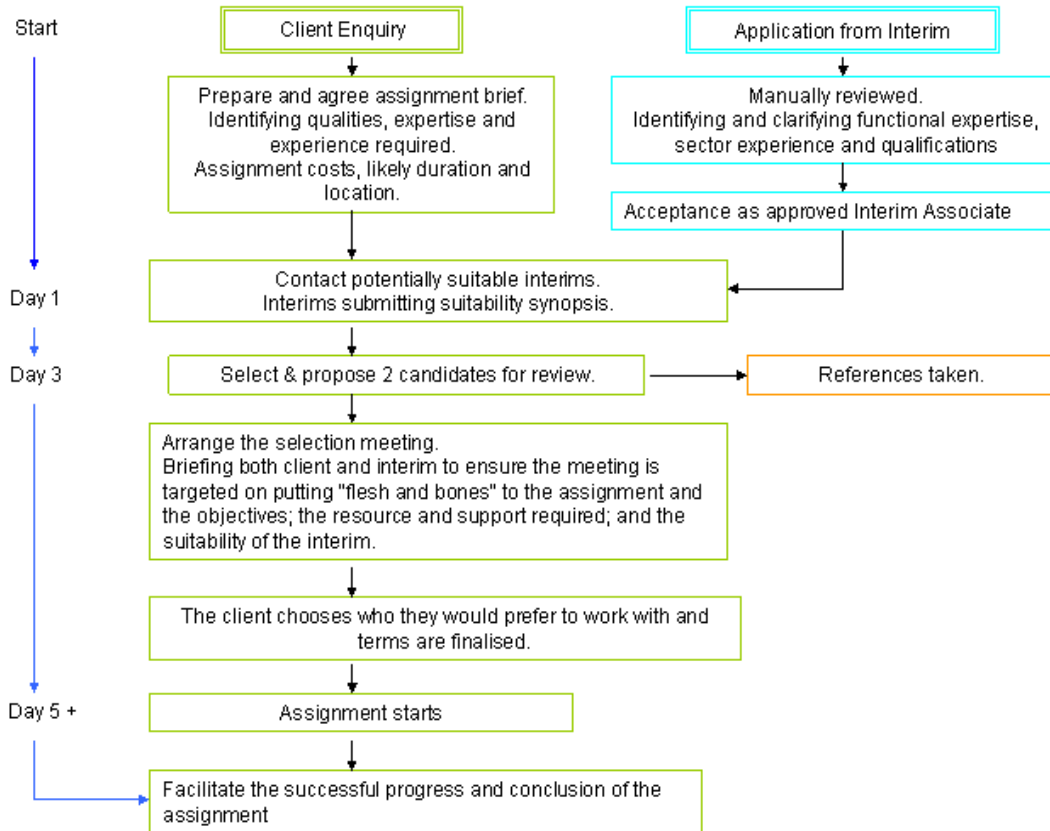

PHS ensures the interim brief captures your requirements & subsequent careful selection provides the best fit for your needs. Costs are transparent, highly competitive with our management executives invariably providing a significant net contribution and value for money. Please note only information agreed by you is disclosed and you will receive details within 72 hours of:

- Two immediately available capable interims
- With the management expertise & relevant business sector knowledge
- Verified first class references
